1. Homepage

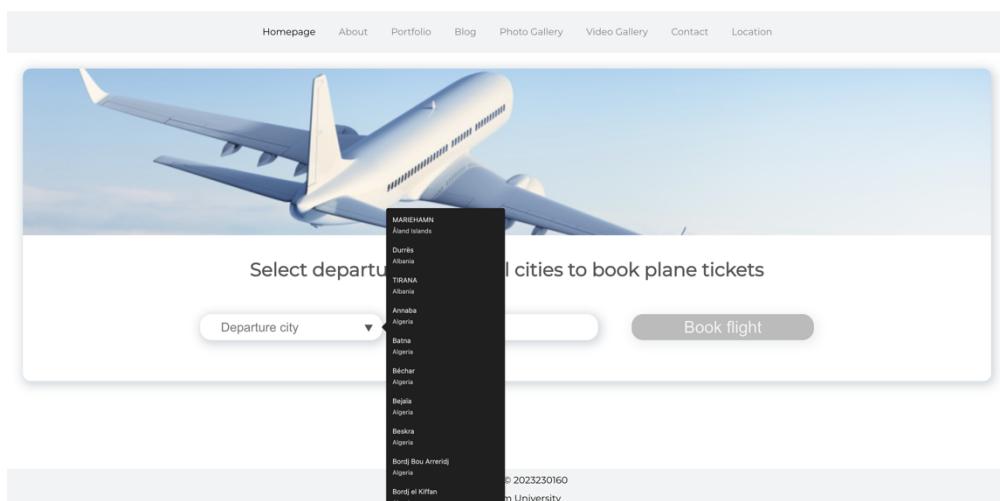

A web page for booking tickets by indicating the cities of departure and arrival, as well as filling in information about the passenger and his preferences.

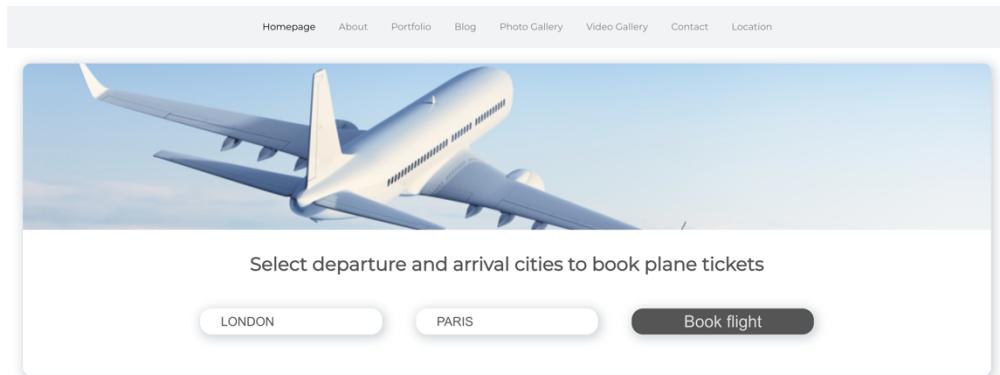

Cities are loaded from the open API using the following link:
<https://countriesnow.space/api/v0.1/countries/population/cities>

Initially the button is locked until cities are selected.

IMPORTANT: Cities must be selected from the proposed list, which is shown when you click on the input field, or be equal from it. In this case, if you specify both different cities, the button will be unlocked.

After entering cities, the "Book flight" button is blocked and a window appears in which you must enter passenger data:

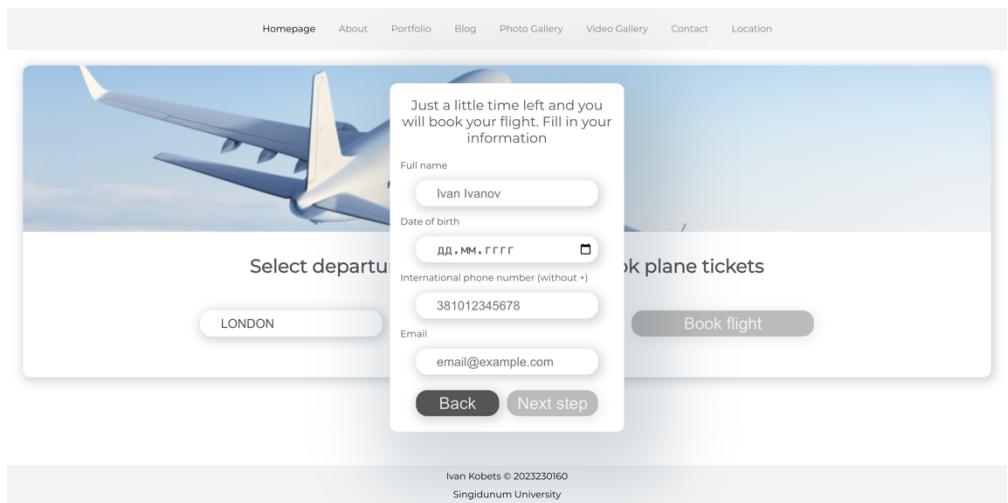

First Name and Last Name (it is important to write both on the same line, validation)

Date of birth (must be less than today's date, validation)

Phone number (numeric, 1 to 15 digits long)

Email (must contain @ followed by domain, validation)

After filling out the form, the button for the next step is unlocked. The "Back" button will return to the selection of cities; all data filled in the form will be deleted.

Just a little time left and you will book your flight. Fill in your information

After entering personal data, the window changes and you need to fill out a form with the passenger's documents:

Document type (drop-down list of two types: passport and national ID card)

Document number (numeric)

Document expiration date (must be greater than today's date, validation)

Citizenship (countries are loaded from the API mentioned above)

After filling out the form, the button to move to the next step is unlocked. The "Back" button will return to filling out personal data about the passenger; all data filled in the form will be deleted.

Please fill in the information about your flight document

After entering data about the documents, the window changes and you need to fill out a form with document preferences:

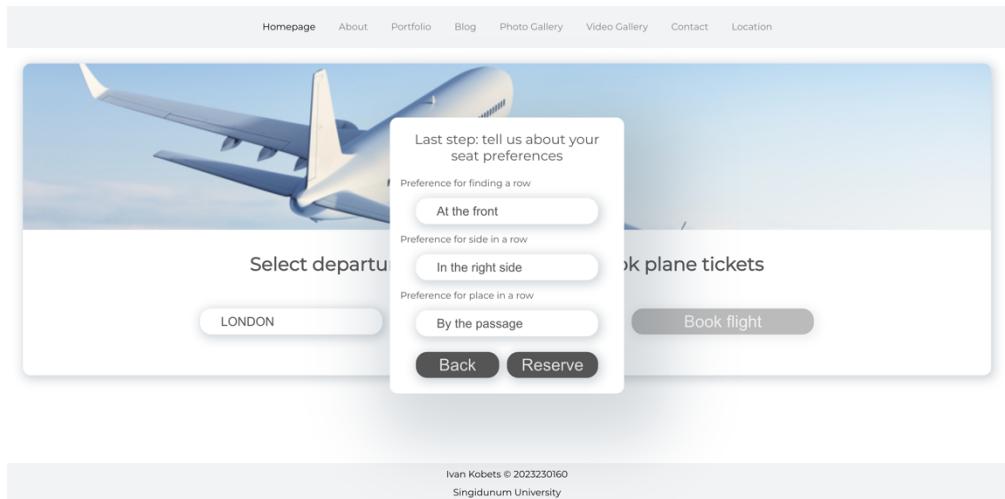

In which part of the plane should I select a row (drop-down list, front, middle, back or doesn't matter)

Which side of the row should you choose a seat on (drop-down list, left, right, or doesn't matter)

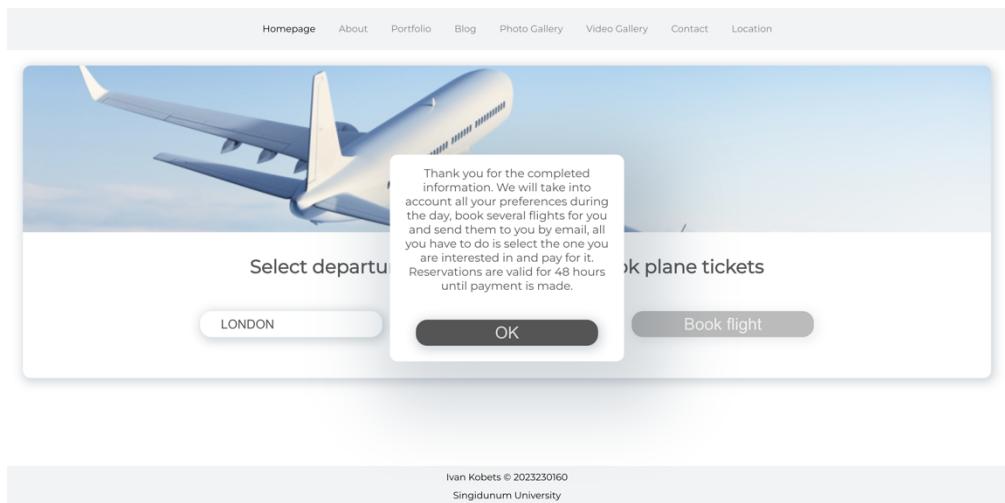

Which seat to choose (drop-down list, aisle, middle, window or doesn't matter)

After filling out the form, the button to move to the next step is unlocked. The “Back” button will return to filling out data about the documents; all data filled in the form will be deleted.

After this, a window will appear informing you that the reservation application has been accepted and a response will be sent to the specified email. By clicking the OK button, the form is closed and the "Book flight" button is unlocked.
